SURVIVOR (After PC has encountered Moodock)

A game of strategy involving two players in the guise of Wizard Trymbyl and The Mage Canuk. The Wizard Piece plays a compound move comprised of one straight and one diagonal move in one turn. The Canuk Piece can move to any square on the board to block the Wizard Piece's movement. Whenever the Wizard Piece vacates a square on the playing board the square gives way to form a pit. The object of the game is to occupy the last remaining square on the board.
